

## One Less Reason

Well nothing hurts me  
 Like seeing you hurt  
 Or changed me  
 Like the day you went away  
 I know you said I was never there  
 You were always a good friend I don't talk about it  
 I only cry when you don't see  
 Though I walk around it  
 ? I felt I was to blame I never wanted to let you down  
 But I couldn't fake it  
 And if you think it's better now  
 Soon you will see, all the ways Did you walk in circles, hey?  
 Did you hurt a little more that day?  
 I know you said you would never wait  
 But you were always my best friend I don't talk about you  
 I only cry when you don't breathe  
 Though I waltz around you?  
 ? away you fell flat on your face I never wanted to let you down  
 But I couldn't fake it  
 And if you think it's better now  
 Soon you will see, all the ways I never wanted to let you down  
 But I couldn't take it  
 And if you think it's better now  
 Soon you will see, all the ways 5:00 a.m.  
 And it's really early for me  
 I'm tired of replacing  
 Everyone I need I don't talk about you  
 I only cry when you don't breathe  
 Though I waltz around you?  
 I heard your voice today  
 And you swear I'm not to blame I never wanted to let you down  
 But I couldn't fake it  
 And if you think it's better now  
 Soon you will see, all the ways I never wanted to let you down  
 But I couldn't take it  
 And if you think it's better now  
 Soon you will see, all the ways  
 All the ways  
 All the ways

All the ways
