Picture This

Rhett Miller

Picture this, many years from now me and you, you and me
and our two little children,
waking up with the sun in the morning
waking up with the sun every morningand i said picture this you and me and me and you
living together happily and never a dull moment picture this,you'll find me up-mist the joy and confusion
the kids will climb up our legs as we're kissing
you catch my eye and you register the moment
I'm tired but im not to tired for you,I said picture this you and me and me and you
living together happily and a never dull moment
I said picture this you and me and me and you
living together happily and a never dull moment picture this,on that day you'll shine so bright
on that day you'll be so beautiful
have no doubt I will always love you
although sometimes i still think,
picture this, picture this, picture this, picture this.
