

No Law

Drew Davis

You can say that you want me to stay
That you need me to stay
I cant move your lips
Make you feel like this
Make you feel like that or anyway
You can say that you wanted me bad; Im the best that you ever had
I can't move your hands
Make them understand
My body, it yearns for yours
I can't make you want me
I wanted you the mostAnother love lost
And I always say its better to have learned this way
And yes there is a cost for you
Ill find theres no law in love at all
Theres no law in love at allYou can lie to me that you tried
That I missed my shot this time
Id lie to get next to you
Im lying to lie by your side
Cmon say that you dont give a shit
That youre so oh, over it
I cant make you care if theres nothing there
I cant make me forget
I cant make you love me
You know you never didAnother love lost
And I always say its better to have learned this way
And yes there is a cost for you
Ill find theres no law in love at all
Theres no law in love at all
Theres no law in love at all
