Booyah

Lisa Lisa

I don't know about you
As for me I'm through
Through with always standing still
Cause now..... Now I'm on the move
And I can finally see..... The path that's right in front of meIt was hard..... I broke down....
I was kicked to the ground
I gave up..... I gave out....
I was lost.... but I found
I was strong..... didn't need
Anyone else but me
In my heart..... always knew
That in time..... I'd let my spirit carry me(Chorus)
Booyah .... Booyah
Now I'm ready..... I'm open so
Booyah .... Booyah
Let it go... Let it blow over
Booyah .... Booyah
If it don't work..... just throw it away
Booyah .... Booyah
Because life is too short to playI guess I had to learn
The tables always turn
You just gotta roll with it
I press on... It's just another day
Whatever comes my way
I know I can handle itIn the blink of an eye.....
Dreams can melt in the sky
And the love that you give
Is the life that you live
But I won't change a thing
Cause I'm still gonna dream
You can come for the ride
But if not..... Look out my train is coming through(Chorus)
Booyah .... Booyah
Now I'm ready..... I'm open so
Booyah .... Booyah
Let it go... Let it blow over
Booyah .... Booyah
If it don't work..... just throw it away
Booyah .... Booyah

Because life is too short to playLook out now I'm on the move
Jump on my train if you want to
Just let your spirit carry you
Cause you can dream if you want to
Life is too short so don't play
If it don't work..... throw it all away
Press on... It's just another day
