

# Punch Drunk

[PT Walkley](#)

Punch-drunk intoxication  
There are jackals in power who feed on frustration  
Sheer will you move it or lose it  
There's power in numbers when are we gonna use it  
The leaders are suspect man you don't know who's lyin'  
Don't know what caused it - it's so hard to swallow  
Collateral damage with innocents' dying  
We all bleed - We all die  
They tell us what to think and they laugh as we follow  
You don't believe it though it happens right before your eyes  
It's a new genocide - what a terrible sin  
It won't stop - Just give in  
Function - diminishing value  
They're cashing their stocks in - you're cutting your losses  
They're draining the banks now but no one will tell you  
Cut rates and tax breaks for bosses  
Conspiracy theory - you think what you want to  
With human lives yeah their playing games now  
If you don't believe it then they already got you  
They may tell you different but the outcomes the same now
