

Milo (with Stuart Duncan)

Claire Lynch

Oh Milo lives in a funky old house
Downtown near the station
While the big trains rumble under the ground,
somethin's shakin'I come from the farm, I raise my corn
Where the sun shines wide and open
He's got weeds that grow in a box on the window
And the air is smokin'But when he's with me, all the birds and bees
Come buzzin' around us
And we slip and slide down a free fall
'Cause we know that love has found usWell some folks move on a fast track
Life's a six lane freeway
And you know how those people act
They don't give you any leewayOh but Milo has a big ol' heart
As big as the Blue Ridge Mountains
And he's charmed me like a Southern gent
So many times that I quit countin'Yeah when he's with me all the birds and bees
Come buzzin' around us
And we slip and slide down a free fall
'Cause we know that love has found usWell, Milo loves his politics
He's got a sure-fired left opinion
And that's a dangerous bill o' goods
For a girl in my positionYou know the greenhouse gas is heatin' up
The world be torn asunder
Oh but Milo and I are hookin' up
'Til the icebergs all go underYeah when he's with me all the birds and bees
Come buzzin' around us
And we slip and slide down a free fall
'Cause we know that love has found us
