

No Place to Go But Home

Wanda Jackson

They turned out the lights
Friends have said their goodnight
Now there's no place to go but home I've had a beautiful evening for awhile
I forgot you were gone
Now you're back on my mind how I hate closing time
For there's no place to go but home No place to go but home
And nobody home when I get there
They turned out the lights
Friends have said their goodnight
Now there's no place to go but home I drive through this ghost of the city
And I've never felt so alone
It's the world's time to sleep and my time to weep
