

# Ancient Aliens

## Lemon Demon

My mind's this cave  
So dark, no moon, no stars  
No sound, just hearts and walls of art  
Strange things happen for no reason  
That's all I know  
My mind's this cave  
So dark, no moon, no stars, no stars  
No sound, just hearts and walls of art  
These creatures I've seen  
Some of them edible, some of them mean  
That's all I know  
I'm not like you  
You fly, you burn my eyes, my eyes  
You speak in my mind  
Your kind all died when you arrived  
I saw you making fire  
Strange things happen for no reason at all
