You Fail Sometimes

Number One Gun

To see that you fail sometimes
It's the only thing to be
And the truth will unwind
And fall on your tongueYou feel that you're gonna be opened up
You think that you're gonna see through your heart
You try not to fall on your face
Now is the time to open upIt's good to know that you fail sometimes
You try to see but you're right off line
It's good to know that you fail sometimes
You try to see but you're right off lineIn time I will see that your way
Is the only way to be, it will fall on my mind
That there must be somethin' real
There must be somethin' realIn time I will see
There must be somethin' realIt's good to know that you fail sometimes
You try to see but you're right off line
It's good to know that you fail sometimes
You try to see but you're right off line
