Dio

She was straight from hell  
But you never could tell  
'Cause you were blinded by her light  
She could crack your brain  
With magic pain  
And turn a paler shade of white Well I was on the free  
Just me and me  
And just about to sail When I heard the voice  
Said you got a choice  
The hammer or the nail You'll be ridin'  
You'll be ridin' on the gypsy  
On the gypsy Well I rolled the bones  
To see who'd own  
My mind and what's within And it's a given rule  
That we're all fools  
And need to have a little sin So I'm ridin'  
Well I'm ridin' on the gypsy  
On the gypsy queen Well she was straight from hell  
But you never could tell  
'Cause you were blinded by the light So she cracked my brain  
With magic pain  
And turned my left around to right, right So I'm ridin'  
I'm still ridin'  
Yes I'm ridin' on the gypsy  
On the gypsy queen  
She's mean
