I'm gonna crawl

[unknown]

Oh she's my baby, Let me tell you why
Hey, she drives me crazy, She's the apple of my eye
'Cause she is my girl, And she can never do wrong
If I dream too much at night, Somebody please bring me down
Hey, I love that little lady, I got to be her fool
Ain't no other like my baby, I can break the golden rule
'Cause I get down on my knees, Oh, I pray that love won't die
And if I always try to please, I don't know the reason why, yeah
If she would come back, Only stay with me
Every little bit of my love, etc., I give to you girl

I don't have to go by plane
I ain't gotta go by car
I don't care just where my darling is
People I just don't care how far
I'm gonna crawl
I don't care if I got to go back home
I don't care what I got to stand to her back
I'm gonna crawl
I'm gonna move the car, baby
She give me good lovin
Yes I love her, I guess I love her
I'm gonna crawl.
