More to Me

Charley Pride

Yes more to me than anything else I've ever known
More to me than anything else I'm ever gonna see
Just your love is all that I need to depend upon
And each day that passes by you're more to meWhen I'm gone away thoughts of you keep a runnin' through my mind
Like a sunny day I can feel your warm sweet love light shinin'
All over me till I'm back in your arms again
And every time I find the feeling's stronger than it's ever beenYes more to me than anything else I've ever known
More to me than anything else I'm ever gonna see
Just your love is all that I need to depend upon
And each day that passes by you're more to meTill my life is through you're the one that I'll be livin' for
Every day with you I just seem to need you even more
And I want to say that I never thought I'd see
Anyone like you who cares so much for someone else like me
