paper dolls

The Bowers

All around me
This feeling has taken over me
Thank God you feel it too
Cos words would fail me
And the spirits did bless this
For getting on that road
We were taken to a place
Magical yet true
As day becomes the night
Love is in my life
Nothing I have known
Ever felt so right
There's no more that I can do
Than to fall a little more in love with you
Here we are and we're paper dolls
And we're side by side
Here we are on the magic ride
Just for you and I
Everytime I look into your eyes
I fall a little more in love
Everytime takes me by surprise
I fall a little more in love with you
Do do do yeah
Do do doo I fall a little more in love with you

It's becoming the one thing
That I want to last
And there's never time enough
The hours go too fast
As day becomes the night
Love is in my life
Nothing I have known
Ever felt so right
There's no more that I can do
Than to fall a little more in love with you
Here we are and we're paper dolls
And we're side by side
Here we are on the magic ride
Just for you and I

Everytime I look into your eyes I fall a little more in love
Everytime takes me by surprise I fall a little more in love with you
Do do do Do do doo
Mmmm I fall a little more in love with you
Do do do yeah
Do do doo I fall a little more in love with you
Everytime I look into your eyes
I fall a little more in love
Everytime takes me by surprise
I fall a little more in love with you
