

# Forever more (Demo)

## The 69 Eyes

    Been a while ever since  
    The wildest of the winds  
        Been whispering  
    About you    Been a while ever since  
        The wildest of the winds  
        Started whispering  
    About you again    Feel my heartbeat  
        like it's just begun  
        Feel my heartbeat  
        on this endless run  
        Feel my heartbeat  
        Forever more  
    Feel my heartbeat    Feel my heartbeat  
        like it's just begun  
        Feel my heartbeat  
        on this endless run  
        Feel my heartbeat  
        Forever more  
        Feel my heartbeat  
    Once more...    Been a while  
        Ever since I let it shine  
        Been wandering  
    Without you within    Been a while ever since  
        I let you shine in  
        Been wandering  
    Without you within    Chorus x 2
