

Don't Make Me Feel At Home

Wesley Dennis

Room number ten, at the Holiday Inn
I softly knocked upon the door
Both excited and ashamed, I slipped off my ring
Something I've never done before

VERSE 2:

The door opened wide, she welcomed me inside
Took my coat and offered me a drink
I just shook my head, sat down on the bed
Looked her in the eye, and said, "No Thanks"

CHORUS:

Don't make me feel at home
Cause, there ain't nothing there but wood and stone
Lonliness is all, I feel inside those walls
And I can't go on
Please make me feel the way
She hasn't made me feel in way too long
Warm me with your touch, Make me feel love
Don't make me feel at home

BRIDGE:

There's no love at home, Is it right or is it wrong
Does it matter if no one really cares
And when she took my hand, I told her once again
As I took the ribbon from her hair

CHORUS:

Don't make me feel at home
Cause, there ain't nothing there but wood and stone
Lonliness is all, I feel inside those walls
And I can't go on
Please make me feel the way
She hasn't made me feel in way too long
Warm me with your touch, Make me feel love
Don't make me feel at home

TAG:

Warm me with your touch make me feel love
