Waiting Alone

Shiny Toy Guns

It's not what you think
If you're thinking I'm a liar
Like falling from grace
I could do that
And I'll be waiting all day
And I'll be waiting all day
Summer grey...
It's only
And I'll be waiting all day
It's only
And I'll be waiting all day

It's not what you think
If you're thinking I'm a liar
Like falling from grace
I could do that
And I'll be waiting all day
And I'll be waiting all day
Summer grey...
It's only
And I'll be waiting all day
It's only
And I'll be waiting all day
