

Star Crossed

Midge Ure

Star crossed and beautiful Watch what you've become
Both flower and gun
You are unique
You wild, wild heart
See all you could be
Growing high and free
Forever lost
You wild, wild heart
Star crossed and beautiful
Stardust, untoouchable I live inside your eyes
Form your truths and lies
Part of my soul
You wild, wild heart
Near but we're worlds away
Kills me every day
This can't go on
You wild, wild heart Star crossed and beautiful
Stardust, untoouchable
Star crossed and beatiful
Ancient and raw and fighting me
Tied up in knots inside of me
Where does it say it's easy
No, we're not alone We're not alone We're not alone
