Thrash Up!

Kmfdm

You bring me up, you bring me down
You bring me up, you bring me downYou told me that you loved me, but I'm not satisfied
I lost control of all my functions you stole
Now what is wrong or what is right?
When another woman driver gets a machine gun from the seat
Can you believe that?
I'm not joking, you left me for my defeat'Cause my thoughts are getting high
On whispering secrets of the kind
Crazy things you do not know
All the feelings I don't show
You better run, there's no more time
Or be the victim of a crimeYou bring me up and down
You bring me up and downYou won't survive my fatal judgment, the merciless intent
I'm not the guy to kid around with just a man that has consentI always told you I would do it pretend to be surprised
You blow me up, you put me down
Now just in time for you to die
Stop all that cryin' you will make me bend
I will be the terminator that puts your life, ah, to its end'Cause my thoughts are getting high
On whispering secrets of the kind
Crazy things you do not know
All the feelings I don't show
You better run, there's no more time
Or be the victim of a crimeYou bring me up and down
You bring me up and downYou bring me up and down
You bring me up and downYou bring me up and down
You bring me up and downYou bring me up and down
You bring me up and down
