Something In The Way

Human Nature

Lady you're looking mighty fine tonight
Makes me just feel I wanna hold you right
Come let me take you on a ride with me
Oh girl you give me everything I need
('Cause I like it) Ooh I like it
(And you got it) 'Cause you got it baby
(And I want it) Right now
(Don't you hide it) Don't you hide it baby
(Girl let's try it) I wanna try it with you
(Let's satisfy it) Bring it home to me
CHORUS
'Cause there's something in the way that you move
And you just don't know what you're making me do
And there's something in the way that you groove
And all I wanna do is get down with you
Lady don't have me waitin' for too long
I got this feelin' deep inside so strong
No-one could ever touch what you do
You really turn me on, baby through and through

('Cause I like it) Ooh I like it
(And you got it) 'Cause you got it baby
(And I want it) Right now
(Don't you hide it) Don't you hide it baby
(Girl let's try it) I wanna try it with you
(Let's satisfy it) Bring it home to me
CHORUS
'Cause its the way that you move that makes me feel so fine
It's the way you groove that makes me blow my mind
It's the way that you move that makes me feel so fine
It's the way that you groove that makes me
CHORUS
Do you wanna get personal?
'Cause I wanna get close to you
I wanna tell you 'bout the way that I feel
Never felt a love so good
Wouldn't stop it if I could
I'm gonna show you that this love's for real
CHORUS TO FADE
