

# This Town (Mint Royale Remix Edit) [Bonus Track]

**Frank Sinatra**

This town is a lonely town  
Not the only town like-a this town  
This town is a make you town  
Or a break you town and bring you down town This town is a quiet town  
Or a riot town like this town  
This town is a love you town  
And a shove you down and push you 'round town This town is an all right town  
For an uptight town like-a this town  
This town, it's a use you town  
An abuse you town until you're down town This town is a losin' town, it's a miserable town  
It's a nowhere town and I am leavin' this town  
You better believe that I'm leavin' this town  
Man, it could never be uptown, it's bound to be downtown
