

# Judge Me (Clean)

[EMM](#)

You saw I was weak  
You used, manipulated me I was born in the dark  
I was swallowed by light  
I gave into you when I fell into the night  
Now the ground where I walk  
Oh the devil has trod  
I called out to you  
Shoulda called out to GOD Oh I always wanted you  
And I hate you but I love you  
And I wish that you were dead  
But I wish you were inside me  
And it's dark inside this head  
Don't you judge me,  
Don't you judge me,  
You don't know where I have been  
Won't you love me  
Won't you love me You were never sober  
And I should've known you'd fuck me over I was born in the dark  
I was swallowed by light  
I gave into you when I fell into the night  
And I worshipped your body like  
Venus and the sun  
Now look what I've become... Lord, why did you bring me here tonight?  
Even I can see we're out of light...  
And Lord I wanted this man to be my life  
And I was ready to be his wife  
Wife, his wife  
His wife, his wife...
