Quick Fix

Kingsfoil

I saw my name on a grave stone
Out the window by the funeral procession
All I wanted was a ride home
So we could get messed up at the receptionNowSummer was hanging her head
Was hanging on like a child before bed
All I wanted to do was get through and catch your eye
And the same feeling from you, let's get tangled up tonightGirl, you could floor me now
With just one bat of your eyelash
So when you stare me down
I'm hoping that I blink, blink lastLet's get it now, let's get it now
Let's get at it, get at it
Don't wanna wait for this fate to fit it in
Don't wanna wait for this fate to fit it in
Tomorrow is far from tonight
Let's get it right, get at it, get at it, get it right tonight
It's called a quick fix
But ain't this a quick lifeI saw my name on a grave stone
I told you twice as my face goes white
I told myself not to get grave stoned
So we're gonna get happy tonightNowWe looking for a corner instead, she said
I'm tugging her clothes but I'm no child before bed
Let's make it quick and nobody will know, I'll show you slow later
Let's get a fix of each other and out from under this tableStraighten up our clothes
This is how the night goesLet's get it now, let's get it now
Let's get at it, get at it
Don't wanna wait for this fate to fit it in
Don't wanna wait for this fate to fit it in
Tomorrow is far from tonight
Let's get it right, get at it, get at it, get it right tonight
It's called a quick fix
But ain't this a quick lifeI tried to see my life
Do more than just flash before my eyes
You are the camera light
The only thing to make me wanna smile, tonightCan't get enough
Can't get enough
Can't get enough of youLet's get it now, let's get it now
Don't wanna wait for this fate to figure it outLet's get it now, let's get it now
Let's get at it, get at it
Don't wanna wait for this fate to fit it in

Don't wanna wait for this fate to fit it in
Tomorrow is far from tonight
Let's get it right, get at it, get at it, get it right tonight
Tomorrow is far from tonight
Let's get it right, get at it, get at it, get it right tonight
You are a quick fix
But ain't this a quick life
