Slippin'

Stemm

Get out the way
I'm cuttin through the fog like a two sided sword
Spittin lyrics every which way
What's the difference between night and day
By word of mouth
I caught you comin from the south
How I went right to left left to right
Now I'm comin back again doin it right
I'm raw won't think twice about cuttin you down
Like a chain saw bust that what bust that what
I got what you need but your neva gonna get it from me
Cut then I bleed pull the plug fucker now I'm free
You couldn't think for yourself if it killed you
Can't you feel it Slippin (chorus 2x through)
As I enter the next level
I'll leave you half hypnotized
With nothin to fear except fear itself
Ya best realize that the fact of the matter is suicide
Think twice when you step to this
Think twice when you step to this
Think twice when you step to this
I'm raw and I won't think twice about cuttin you down
Like a chainsaw bust that what bust that what
(Chorus)
You brought me in In your life
Now you left me I guess it's mine
You brought me in in your life
Now you left me I guess it's mine
Slippin/Slippin away
Slippin/Slippin away from me
You brought me in in your life
Now you left me I guess it's mine
You brought me in in your life
Now you left me I guess it's mine
Slippin/Slippin away
Slippin/Slippin away from me
I can't stand what you did to me
Every single time you [(with me) (repeat)]
I can't stand what you did to me

Every single time you fucked with me (repeat)
(Chorus)
