

Underwater

Whitney Tai

Oh Oh, Oh Ohhhh
No No, No No

(Verse 1)

Cold is settling in my bones
Skin is tight across my pores
Shivers making new vibrations
Beyond resuscitation
Complete state of shock
Would you please make it stop?

Rolling in the waves
Bodyâ€™s in suspension
Drifting towards nothingâ€ and no one
Only enemy
Is my own reflection
Voices in my head, but I canâ€™t listen

(Chorus)

Iâ€™m underwater
Why wonâ€™t you pull me out to safety?
Do you like to see me, struggling hard?
Just maybeâ€ Youâ€™ll come and rescue me
(Or maybeâ€ The hero is just me)

(Verse 2)

Rise and shine, rinse and repeat
Stay afloat or sink in deep
What a lonely disposition
Bound by repetition
If canâ€™t break free
The water owns me

Carried out to sea
All the imperfections
Drifting towards nothingâ€ and no one
Only enemy
Was my own reflection

Sheâ€™s gone now, new direction

(Chorus)

(Talking)

All this timeâ€ I thought the hero was you
But I was wrongâ€ it was me, it was always me
