

# Making You Cry

## The Whiskey Saints

You know I have to go soon  
But I just want to know you  
I just want to hold you in my arms  
You got me reaching for the one thing  
I'm reaching for the brass ring  
You got to show me where you are  
If you're feeling lost and lonely  
Then you can't console me  
Please try to smile  
I'll take you out if it makes you better  
Anything instead of making you cry  
If I could count it all on one hand  
And figure out a simple game plan  
Then I will break before I bend  
I'm watching all this time fly  
But I'm not planning any goodbyes  
Cause I know it's not the end  
If you're feeling lost and lonely  
Then you can't console me  
Please try to smile  
I'll take you out if it makes you better  
Anything instead of making you cry  
Making you cry
