

See My Way (2006 Remaster)

Blodwyn Pig

Need a light to see my hand and I can't help it if I stumble
Over those things that are set before me
Wanna see, see my way
Need a friend to help me through when I'm down Pick my body up and carry me home, take me home
Make a point of watching my life I can see it's been so wrong
Climbing mountains without even looking
Want to see, see my way Need a friend to help me through when I'm down
Pick my body up and carry me home, take me home
Need a light to see my hand and I can't help it if I stumble
Over those things that are set before me Wanna see, see my way
Need a friend to help me through when I'm down
Pick my body up and carry me home, take me home
