Mighty Mighty

Earth, Wind & Fire

Walk around, why wear a frown?

Say, "Little people, try to put you down

What you need is a helpin' hand

All the strength, at your command"How's ya faith? 'Cause ya faith is you

Who you kiddin', to yourself be true

Spread ya love, for a brighter day

For what ya search, you'll find a wayHold yourself, hold yourselfWe are people, of the mighty

Mighty people of the sun

In our hearts lies all the answers

To the truth you can't run from Eagle flies, every seven days

Still cryin' the blues, all about ya pay

What ya gonna do 'bout your living thang?

Will ya make it better, or just complain? Everyday is real, don't run from fear

'Cause better days are very near

There are times when you are bound to cry

One more time, head to the skyHold yourself, hold yourselfWe are people, of the mighty

Mighty people of the sun

In our hearts lies all the answers

To the truth you can't run from We are people, of the mighty

Mighty people of the sun

In our hearts lies all the answers

To the truth you can't run from We are people, of the mighty

Mighty people of the sun

In our hearts lies all the answers

To the truth you can't run from
