

Love Is On the Way

Deborah Cox

I wanna rock with you
I wanna rock with you
I wanna rock with you Don't you worry love is on the way
As we lay we'll rock the night away
You just name the time and place I know you miss me
And I've been missing you
Before you know it
I'll be right there next to you No matter the distance
You're still in my heart
Baby I'm with you, even though we are apart
So don't worry Don't you worry love is on the way
I really miss you
As we lay we'll rock the night away
You just name the time and place Don't you worry love is on the way
I really miss you
As we lay we'll rock the night away
You just name the time and place I'm never too busy
When it comes to loving you
Hold on, I'll be there
'Cause I have plans for me and you We can hide away in our secret place
The two of us alone again
A special place where our love began
So don't you worry Don't you worry love is on the way
I really miss you
As we lay we'll rock the night away
We'll rock the night away Don't you worry love is on the way
I really miss you
As we lay we'll rock the night away
You just name the time and place Hide away, I've been lonely, babe
Hide away late at night, baby
A special place where all our love began
That's where our love began, that's where our love began Don't you worry love is on the way
I really miss you
As we lay we'll rock the night away
You just name the time and place Don't you worry
As we lay we'll rock the night away I wanna rock with you
I wanna rock with you
I wanna rock with you You just name the time and place
Don't you worry love is on the way

I really miss you
As we lay we'll rock the night away
