

# Gonna Let You

## PawnShop kings

i know i don't make things easy  
still you're here and you believe in me  
you should believe in  
your sweet voices saying something  
i'm too busy, busy talking  
i should be listening you break it open  
you make it better  
you want to sit me down and talk about forever  
i want to let you  
i'm gonna let you now you see more in me than i do  
no one thinks that i deserve you  
don't you believe them  
i know i don't say i need you  
but i need to, 'cause i need you  
you got me listening you break it open  
and make it better  
you want to sit me down and talk about forever  
i wanna let you  
i'm gonna let you now not gonna let you down you break it open  
and make it better  
you want to sit me down and talk about forever  
let's break it open  
and make it better  
sit down and honestly talk about forever  
i want to let you  
i want to let you  
i want to let you  
i'm gonna let you now
