

Everyday Sunshine

Fishbone, Vicky Calhoun, Kristen Vigard, Aklia Chi

I wish everyday the sun would shine
Take me to another place in my mind
 Where everything is beautiful
 And no wants or needs
 Nor sign of greed
 Could rule our soul
How I wish the sun would shine
How I wish the sun would shine
 If we could fly away on wings
 To a place where all could be true
 And the skies were blue
 And love was true
 And me and you
How I wish the sun would shine
How I wish the sun would shine
