

World Long Gone

Scars on Broadway

Sometimes, I said sometimes
I go crazy, like I'm crazy
It takes patience, lots of patience
Then it's over, fucking over I look at the sky, faded
I read the stars Maybe I don't know
How many people are starving
In this world long gone Sometimes, I said sometimes
I go crazy, like I'm crazy
It takes patience, lots of patience
Then it's over, fucking over I look at the sky, faded
I read the stars Maybe I don't know
How many people are starving
Maybe I don't know
How many people are starving
In this world long gone I look at the sky, faded
I read the stars Maybe I don't know
How many people are starving
Maybe I don't know
How many people are starving
In this world long gone
