

# Lighten Up (Superdiscount Radio Mix)

## Morcheeba

I can feel a storm brewing over nothing  
We were having fun, there's no harm done there  
You need attention, I can see you're sulking  
It's about time that you learn to share  
Lighten up, it's gonna brighten up  
I want to play, you're in the way of our sunshine  
Lighten up, it's gonna brighten up  
Just let it go and I will throw you a lifeline  
I don't know what happened to those resolutions  
We think we found the truth at last when it escapes  
Inside the mirror is a false impression  
I can feel so swollen when I'm in good shape  
Lighten up, it's gonna brighten up  
I want to play, you're in the way of our sunshine  
Lighten up, it's gonna brighten up  
Just let it go and I will throw you a lifeline  
Lighten up, it's gonna brighten up  
I want to play, you're in the way of our sunshine  
Lighten up, it's gonna brighten up  
Just let it go and I will throw you a lifeline  
Lighten up, it's gonna brighten up  
I want to play, you're in the way of our sunshine  
Lighten up, it's gonna brighten up  
Just let it go and I will throw you a lifeline
