

Fuck Your Face

Phish

I went down to the guitar store
And I bought myself some things
Then I went home to fix this guitar
To see if it could sing When I got done I plugged it in
But it made no sound at all
So I was gettin' pretty pissed
And I plugged it into the wall Guess it's not a singing type
It would rather yell and spit.
If you don't think you'll like this guitar
Then you're really askin' for shit 'Cause when I get mad, I get red
And then I start to steam
And this guitar is gonna fuck your face
'Cause it knows how to scream
