Beatles Song

Sense Field

She's got a friend
She's got a broken heart
Lying in bed
Waiting for life to startShe's got a friend
She's got a Beatles song, oh yeah
She played it
All night long, oh yeahShe made it again
But then it fell apart
She played it again
She played her favorite partShe's got a friend
She's got a Beatles song, oh yeah
She played it
All night long, oh yeahNow, she's happy alone
Now, she's happy alone
Now, she's happy aloneShe's got a friend
She's got a Beatles song
She played it again
She played it all night longShe's got a friend
She's got a Beatles song
She played it again
She played it all night longShe's got a friend
She's got a Beatles song
She played it again
She played it all night
