Return The Favor

We Are Scientists

Personality was worthless
If love is.
What you drew out of me.
It's a personal burdenTonight, It's occurred to me
I might just return the favor
I hope that you're not afraid of askingI've never been impressed if it was
Essential
But it's been for the best
I'm better than everTonight, It's occurred to me
I might just return the favor
I hope that you're not afraid of asking, try meTonight, It's occurred to me
I might just return the favor
I hope that you're not afraid of asking,
try me, try me, try me.
