

# One In a Million

## Run Kid Run

To my surprise I found my daylight  
In summer skies, yeah whoa  
Colors came out of waves  
When I first saw your face shine through  
A spotlight fell that day  
I'll make this loud so you can hear me say

Hey there, one in a million  
I feel alive as our love, it collides  
You put life into motion  
You've got me spinning  
You're spinning me out of control

Girl, dream big, we'll do it again  
When the city calls  
Hand in hand, this is love  
Buildings tower over us

You're a queen, won't you dance?  
Won't you sing your melody?  
Smile for the best days exist  
I'm the luckiest, you're the reason for this

Hey there, one in a million  
I feel alive as our love, it collides  
You put life into motion  
You've got me spinning  
You're spinning me out of control

As my life explodes  
You've got me hanging on, I'm hanging on  
I'm out of control as my life explodes  
You've got me hanging on forever  
And we're hanging on forever  
And we're hanging on forever

Hey there, one in a million  
Hey there, one in a million  
One in a million, life's in motion  
You've got me spinning

As our worlds collide

Hey there, one in a million  
I feel a live as our love, it collides

You put life into motion

You've got me spinning

You're spinning me out of control, I'm out of control

Hey there, one in a million
