

# Summer Song

## Forever the Sickest Kids

I can tell you I'm ready but I'm not  
I can say that I care but it's not enough  
This summer's the one to remember  
And I won't forget Followed you through the west coast  
Take my hand and I won't let go  
This summer's the one to remember  
So what are you waiting for? This is the night, we came alive  
Into the summer times, state of mind  
Fight for the finish line  
We'll be ready 'til the sun comes up  
Goodbye then give it up  
This is our summer song City lights of the 101  
One on one tonight  
Your body language speaks to me  
Yeah, I'm hearing everything I need Calm down to a moonlit midnight kiss  
Your lips, girl, will go all night  
This summer's the one to remember  
So what are you waiting for? This is the night, we came alive  
Into the summer times, state of mind  
Fight for the finish line  
We'll be ready 'til the sun comes up  
Goodbye then give it up This is our night, this is our time  
This is our last chance  
All out fight for the finish line  
We'll be ready 'til the sun comes up  
Goodbye then give it up I don't want this to fade away  
As easy as it came  
I don't want this track to ever change  
'Cause this is our summer song This is the night, we came alive  
Into the summer times, state of mind  
Fight for the finish line  
We'll be ready 'til the sun comes up  
Goodbye then give it up This is our night, this is our time  
This is our last chance  
All out fight for the finish line  
We'll be ready 'til the sun comes up  
We'll be ready This is our summer song  
This is our summer song
