Hot For Me Now

Meridian Dan

I'm a big MC if anyone's askin' All these years now man a been graftin'
I spray bars they were laughin' they say can't see man chartin'
I make grime, grime is arting All these years now man a been barring
Gotta keep hacking away and carving the UKC now I play my part in(I'm hot for you)
Hot for me now where were you then
Hot for me now where were you then
(I'm hot for you)
Told me twice don't say that again
Funny how you wanna be my friend now it gets you a pass to the big weekend(I'm hot for you)
Hot for me now where were you then
Hot for me now where were you then
(I'm hot for you)
See man jump on the trends
And now they wanna jump in the Benz you wanna free ride that don't make senseSee man goin' in hard, Man I'm like oh my 'lard
Oh my god, how can you mess with a sound this large they said I'd be a second class
I didn't choose this path, this path was written in stars now it feels like a man from mars
Man from mars, yeah, spaceman lyrics on lyrics and bars on bars
I heard them say I was a wasteman but I make cream like HÃ¤agen-Dazs
See my life I live to the max, I came up in the concrete flats
Now I make bad boy tracks you gotta say that if you're talkin' facts(I'm hot for you)
Hot for me now where were you then
Hot for me now where were you then
(I'm hot for you)
Told me twice don't say that again
Funny how you wanna be my friend now it gets you a pass to the big weekend(I'm hot for you)
Hot for me now where were you then
Hot for me now where were you then
(I'm hot for you)
See man jump on the trends
And now they wanna jump in the Benz you wanna free ride that don't make senseI spent time on the bench, now I'm banging in goals like Sterling
When I was countin' pence, no one cared what I was earnin'
Still new to the game and learnin', man can't say that I didn't put work in
Out here makin' magic and that, call me Meridian Merlin
Had a hard time but I'm a fighter, went ravin' with a fiver
Thought 'bout life in Docklands Diner now I've got bare drinks on the rider
In this game there's a hierarchy me and my squad we're the CulturArte
It goes off when am in the party who told you I'm Illuminati(I'm hot for you)

Hot for me now where were you then
Hot for me now where were you then
(I'm hot for you)
Told me twice don't say that again
Funny how you wanna be my friend now it gets you a pass to the big weekend(I'm hot for you)
Hot for me now where were you then
Hot for me now where were you then
(I'm hot for you)
See man jump on the trends
And now they wanna jump in the Benz you wanna free ride that don't make sense(I'm hot for you)
Hot for me now where were you then
(I'm hot for you)
You're hot for me now where were you then
