

# Enter the Dark Side

## Body Count

People say, "Ice, you got money"  
I say, "Man, I just got some money  
And I know how easy it is to lose it"  
You know what I'm saying?  
I know how one mistake can cost you it all  
I didn't come from money  
I came from the dark side  
And I never wanna go back thereThe ghetto is not black, the ghetto is poor  
You don't know me, you ain't never met me before  
You pre-judge my life and you don't know my pain  
You feel you're so much better when we're all the same  
Because you have money you feel you're above us all  
So fucking self-righteous until you take that fall  
And then you're flat broke and you need food to eat  
Once behind guarded gates and now you walk the streets  
Police are different now, they get fucked with every day  
You walk my people now, they move the other way  
You never gave a fuck, just lived your selfish life  
You never broke a law, hungry you fucking mightWelcome to the dark side  
Survival makes you blood thirsty  
Into the dark side  
Survival makes you blood thirsty  
Welcome to the dark side  
Survival makes you blood thirstyDon't ever judge a man till you lived his life  
The tables could turn in the blink of an eye  
Talking shit damn from that high horse you ride  
One mistake for you, into the dark side
