26 Miles From Marathon

Extol

And so it's the end
The hollow end
So speed the process
Again and again
Move as fast as you can
Like the wind
On no endHorizontal flickering
Like flash before my eyes
Recurring pictures
The holocaust
Over and over
Burnt into my mind
Like bright starsI will deliver
Your work shall be forever
I will endure
Keep my strength in youMemories fade
Cease to pause
To measure time
To treasure day
But when I see it
The way I see it
