Manimal

Turbonegro

I came into this world
As a puzzled panther
Waiting to be caged
But something stood in the way
I was never quite tamed
Crossed paths of right and wrong
Saw them take their toll
I saw the armies march
And like animals they crawled

Evolution is a process
Too slow to save my soul
I've got this creature on my back
It just won't let go
Ha ha ha
If I am only an animal
Then I can do no wrong
But they say something better
So I've got to hang on
