Each and Everyday

Best Coast

Every day's the same, I feel like I'm losing my mind
All I do is think about you all of the time
I don't even know why I care as much as I do
I just wish that you would tell me, "is this real or are we through?"
Ooh, ooh, ooh, la la la la
Ooh, ooh, ooh, la la la laEverything I said to you last night might have been crazy
But I want you to know that I meant it, I meant it, I meant it, oh, baby!You, you, youYou will never fall in love
You will never fall in love
You will never fall in love
You will never fall in loveOoh, ooh, ooh, la la la la
Ooh, ooh, ooh, la la la laEven though I never get to see you, I always want to
But even through the cheatin', all I know is that I want you
I wish we could go back to when I was seventeen
And I wouldn't, wouldn't, wouldn't, wouldn't, wouldn't have been so meanYou, you, youYou will never fall in love
You will never fall in love
You will never fall in love
You will never fall in loveEvery day I wake up and I thank the stars above
For sending me a man who I could really love
If only I could convince you to feel the same way
We could be so very happy each and every dayEach and every day
Each and every day
