

# Teacher

## She Mob

Will ya let me learn you something  
Oh I will, indoctrinate your mind  
Wont ya let me be your love your mother  
The greatest of all time  
On your knees confession your obsession  
I'll dominate you dark  
I gave you hell to take you to heaven giving you  
Star spangled heartsI will be your teacher baby  
I will be your flame  
Slide inside to reach you maybe  
I won't know no shameI will be your teacher preacher  
On your knees and you pray  
Father of your addiction, tell me  
Am I the one that you'll blameIn the time end oh you've learned nothing my brother  
Teacher to your kind  
Oh independence one [won] you nothing but a  
Sudden death in overtime  
Salute the flag's oppression your blessing  
I got a bigger gun  
Than all you fucking beggars all ya put together  
I'm uncle Sammy's sonI will be your teacher baby  
I will be your flame  
Slide inside to reach you maybe  
I won't know no shameI will be your teacher preacher  
On your knees and you pray  
Father of your addiction, tell me  
Am I the one that you'll blameI will be your teacher baby  
I will be your flame  
Slide inside to reach you maybe  
I won't know no shameI will be your teacher preacher  
On your knees and you pray  
Father of your addiction, tell me  
Am I the one that you'll blameAm I the one that you'll blame
