Neverending Show

Ryan Bingham

I've been running way too fast, but I don't have where to go
If I can keep from running out of gas
Hopefully I'll make it home
It's nothing left out here for me to see
Nowhere else to roam
It's nothing else out here for me to be
In the never ending showI don't need the rhyme stone suit
Someone else can hang it on their wall
I don't need the heavy boons
They won't help if I have been to fall
All I care for now is holding you
Never letting go
It's nothing left out here for me to prove
In the never ending showI don't need the marking signs,
I don't need my name in lights
I don't need to wonder why
My head hurts and I can't sleep at night
You are all I have to hold on to
You are all I want to know
No more turning inside out and blue
In the never ending showI've been running way too fast, but I don't have where to go
If I can keep from running out of gas
Hopefully I'll make it home
It's nothing left out here for me to see
Nowhere else to roam
It's nothing else out here for me to be
In the never ending show
