

# Immaculate

## Stakka Bo

This I long feared  
Of what might be  
Fear though I'd scare  
An ebony  
If all the world  
Could see us now  
They'd realize  
That we could be immaculate  
If all the world could see us now  
I walked through day  
What should I might fear  
Word can't describe  
This love I need  
But now I testify  
Before you now  
No wasting time  
No waiting then  
If all the world  
Could see us now  
  
They'd realize  
That we could be immaculate  
If all the world could see us now  
I don't wanna lose control when it comes to rains  
I don't wanna be the one to never cease the day  
I want you to come with me [Incomprehensible] break away  
From the unnatural  
If all the world  
Could see us now  
They'd realize  
That we could be immaculate  
If all the world could see us now  
If all the world could see us now  
If all the world could see us now  
We were living for the world  
Living in a dream  
If all the world could see us now
