

pink frost

Chills

Want to stop the crying, want to stop the crying
She's lying there dying
How can I live when you see what I've done?
How can I live when you see what I've done? What can I do if she dies? What can I do if she dies?
What can I do if she's lost?
Just the thought fills my heart with pink frost Thought I was dreaming so I didn't hear you screaming
I'm so scared, I'm so scared
She won't move and I'm holding her head
She won't move and I'm holding her head She's lost, she's lost
She's lost
Pink frost I'm really not lying
I'm so scared
I'll have to stop the crying
Now she's dead What can I do if she dies? What can I do if she dies?
What can I do if she's lost?
Just the thought fills my heart with pink frost
Oh no
