

# Go There With You (Performance Track In Key of D)

[Steven Curtis Chapman](#)

I know you've heard me say these words before  
But every time I say I love you the words mean something more  
I spoke them as a promise right from the start  
I said death would be the only thing that could tear us apart  
And now that you are standing on the edge of the unknown  
I love you means I'll be with you wherever you must go CHORUS  
I will take a heart whose nature is to beat for me alone  
And fill it up with you - make all your joy and pain my own  
No matter how deep a valley you go through  
I will go there with you  
And I will give myself to love the way Love gave itself for me  
And climb with you to mountaintops or swim a raging sea  
To the place where one heart is made from two  
I will go there with you I see it in your tears - you wonder where you are  
The wind is growing colder and the sky is growing dark  
Though it's something neither of us understands  
We can walk through this together if we hold each other's hand  
I said for better or worse I'd be with you  
So no matter where you're going I will go there too CHORUS  
I will take a heart whose nature is to beat for me alone  
And fill it up with you - make all your joy and pain my own  
No matter how deep a valley you go through  
I will go there with you
