# Say What You Want

## Sarah Blasko

You live, you learn
How the tide can turn
You took a step and it led you here
You don't have much
But you have a will
As strong as stone
Throw the ashes clearWanna make it alright
Feel for you tonight
I know you had other plans
Saying you're fine
I know that you hide
Hoping you understand
That I want to be there
Just say what you want, I'll know how you feel
I'm always waiting with my open hands
You can say what you want, I'll know how you feel
There'll always be a place to rest your head
Copy, paste, robots, i'm so tired of them
You live the things that you do believe
There's nothing else you can do differently
Your deep regret is so heavy tonight
Like iron, like stone
Don't try to lift it aloneWanna make it alright
You're hurting tonight
I know you had other plans
Saying you're fine
I know that you hide
Hoping you understand
That I want to be there
Just say what you want, I'll know how you feel
I'm always waiting with my open hands
You can say what you want, I'll know how you feel
There'll always be a place to rest your headAnd I want to be there for you like you are always there for me
And I want to be someone you can depend
Yeah I want to be there for you like you are always there for meWanna make it alright
Feel for you tonight
I know you had other plans
Saying you're fine
But, please, do not hide

Hoping you know I want to be there
I want to beJust say what you want, I'll know how you feel
I'm always waiting with my open hands
You can say what you want, I'll know how you feel
There'll always be a place to rest your headSo hold tight
(And I want to be there for you like you are always there for me)
Hold on tight
(And I want to be someone you can depend)
Hold tight
(And I want to be there for you like you are always there for me)
Hold on tight
(And I want to be someone you can depend)
Hold tight
(And I want to be there for you like you are always there for me)
