Poisoned

Taetre

Those summer nights, those summer nights in bed
You were forcing him to play
You cannot make it right, you can't make it right again
He's scared now for life

Hey! Will he ever let it out?
And I wonder why doesn't he break down and cry?
How do you feel when he's inside you and he cries?
What's in your head, is it pleasure in your mind?

He didn't know what's right, he didn't know what's right but you did
He was just a kid
On top of a child, on top of a child, it's wrong it's so bizarre

Hey! Will he ever let it out?
And I wonder why doesn't he break down and cry?
How do you feel when he's inside you and he cries?
What's in your head, is it pleasure in your mind?

You're so bad, you're so bad, the poison is in there now and forever
The soul's lost and the ache is blunt, hollow feelings

You killed his youth and hunger,
the mouring wont stop,
addiction's growing.
Masturbation saved his life

It means nothing now
It means nothing now to you now
But its everything to him
