Real Love

John Michael Montgomery

I don't take your breath away
My tongue don't get tied when you walk in a room
Every single minute of every day
You don't dream about me, I don't think of you
I'm not sayin' it can't happen that way
Our life ain't no cliche
We got real love
You weren't lookin' for a man
Funny how your independence really turned me on
Just the opposite of what we planned
Everything that's so right was supposed to be wrong
In all likelihood we shouldn't be together
But now it's forever
We got real love
We fuss and fight
Make love so right
We're up all night
We got real love
This ain't no Hollywood movie scene, romance novelty
Based on a story 'bout you and me, no
We got real love
We fuss and fight
Make love so right
We're up all night
We got real love
We got real love
